

# INTRODUCING

## RICHARD YAI, DDS

We are thrilled to introduce our new associate dentist, **Dr. Richard Yai**, to the Gary Ackerman, DDS Dental family.

Dr. Yai, brings a wealth of experience and a passion for dentistry to our practice. He is from Fremont, California, and is excited to serve our community. He graduated from UC Berkeley in 2008 with a degree in Molecular Cell Biology, alongside a minor in music. In 2013, he earned his DDS degree from Loma Linda University in Southern California, which, coincidentally, is Dr. Ackerman's alma mater!

While Dr. Yai initially pursued professional golf for several years, it has now become one of his cherished hobbies. In his leisure time, he also enjoys playing basketball, table tennis, and the guitar. Dr. Yai is recently married to his lovely wife, Cherie, and is enthusiastic about practicing dentistry in Northern California. **He is dedicated to fostering long-lasting and trusting relationships with both patients and colleagues.**

Dr. Yai's patient-centered philosophy is rooted in treating individuals as he would his own family and loved ones. **He is committed to delivering high-quality dentistry through conservative treatment plans while ensuring a comfortable experience for all patients.** Dr. Ackerman will be working alongside Dr. Yai starting early to mid-October as Dr. Yai plans to be in the office approximately 2 to 3 days a week. This exciting addition allows us to expand our patient appointment opportunities while maintaining the same dedicated team of staff members who are always ready to assist and answer any questions you may have.

We feel fortunate to have found the perfect dentist to continue our tradition of exceptional care. We trust that you will extend the same loyalty and friendship to Dr. Yai that you have shown to Dr. Ackerman over the years. **Thank you for your continued trust and support.** We look forward to serving your dental needs with the same dedication and expertise that you have come to expect from our practice.
